

Automotive Group Report - July 2023

July's weather was rather challenging for the Group. The Hamsterley Vintage Vehicle event was practically washed out so full credit to the organisers for their stoicism.

A small number of members did make it to Croft for the British Touring Car Championship. The new hybrid formula does not seem to make for so much wheel-to-wheel action. However, the support races, particularly the Legends (pictured) and Minis were great entertainment.
