

Genealogy report for September

A dozen members of the group joined in a 'help your neighbour' session where members shared their skills with their neighbours round the table. In the course of this we discovered that one member was the second (?) cousin of her neighbour's husband! This is the second pair of cousins we have found within the group.

I wouldn't be surprised to find other cousin pairs within the group; many of us have at least some roots in Teesdale, Weardale, Allendale or Alston.

The next meeting of the Genealogy Group will be on Thursday 5th October at 2 p.m. at Enterprise House. Pam Taylor will give a talk entitled

'Ancestry in Concert' - how Ancestry works and how to use it to build a tree but diverting to other sources when it is easier or faster to find the info needed.

This will be followed by another 'help your neighbour' session.
