

Genealogy report for November

Pam Taylor continued her talk "Ancestry in Concert - how Ancestry works and how to use it to build a tree (but diverting to other sources when it is easier or faster to find the info needed)"

Again there was much interest and many questions from the group. She still has more to say (!) and she will continue in the final meeting on Thursday 7th December at 2 p.m. at Enterprise House.

Genealogy Group Closure

Very regrettably there will be no meetings of the Family History Group in January and subsequent months due to the ill-health of the current convenor . The membership of the group has been a steady dozen and it is to be hoped that a member of the Teesdale U3A will come forward to reactivate the group before too long.
