

NEEDLECRAFT

On a cold and wet May Bank Holiday Monday we met for a very enjoyable afternoon of stitching. Knitting predominated, partly due to the fact that it is easy to transport and can mainly be done without too much concentration so that we can also enjoy putting the world to rights! The Brexit saga and local elections were discussed, but we also talked about wheelybins, neighbours and the local bird population. We had been given three sacks of packs of good wool, which has been gratefully received into new homes.

Our next meeting will be on Monday 3rd June when new members will be most welcome. Please ring me for venue details.
