

## NEEDLECRAFT

MAY 2024

Often we all bring knitting to our meetings because it is easy to pick up and unless it is a complicated pattern you can knit and chat easily. However this month there was also embroidery and patchwork being undertaken. As usual we talked about many things – health and safety, soup-making, hospital transport, car insurance amongst other topics.

Our next meeting will be on Monday 3<sup>rd</sup> June. New members are always welcome and you certainly don't need to be an expert to join us, just enjoy stitching with like-minded folk. Please give me a ring if you are interested.
