

## Forum Wine Report July 2020

This week, the middle one in July, usually sees our 'Summer Fizz' session, perhaps the highlight of the year's meetings. Unfortunately, despite the opportunity to hold this outdoors, the current rules would not allow enough of us to join in to provide a fair and 'legal' gathering, so it has been postponed. It is hard to see August bringing much respite but members should keep in touch with government guidance. It would be good to get together again before the winter is upon us!

To keep members active I have requested a report from each on a wine they have selected to taste during the month. The results should appear in the August Forum, along, as I say, with hopefully more positive news. In the meantime, keep your spirits up with the odd glass or two, always of course in moderation.
